Forecast for Sunday 12 Jun 2022

Weather: Early low cloud may cover the hill tops, and bring a little drizzle or light rain at times. However, this is expected to clear by 9 am to leave a dry bright day with light winds

Chance of cloud-free hill tops above 600m: Until 9 am: 20% with early cloud covering the hills down to 300m or so.
After 9 am: 90% with fair weather cloud well above the summits.

Low cloud and visibility: Until 9 am. Low cloud likely down to 300m above sea level. This will cause patchy hill fog with visibilities down to 100m at times.
After 9am: Crystal clear visibility of distant hills up to 40 miles away.

Meteorologist's View

In the afternoon sunshine, UV levels will be very high out on the hills, as we are only a few days away from the summer solstice. Sun protection and the wearing of T-shifts are recommended. Pollen levels are also very high at this time of year, so those with hay fever might want to come prepared.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Monday 13 Jun 2022

Weather: Early low cloud may cover the hill tops, and bring a little drizzle or light rain at times. However, this is less likely and not as low as on Sunday and is expected to clear by 8 am to leave a dry bright day with light winds.

Maximum wind: Westerly 10 mph with gusts up to 20 mph in the afternoon on the summits.

Chance of cloud-free hill tops above 600m: Until 8 am: 40% with early cloud covering the hills down to 400m or so.
After 8 am: 90% with fair weather cloud well above the summits.

Low cloud and visibility: Until 8am: Low cloud likely down to 400m above sea level. This will cause patchy hill fog with visibilities down to 100m at times.
After 8am: Very good visibility of distant hills up to 30 miles away.

Temperature: **Valleys:** 10 C at dawn rising to 17 C in the afternoon.
At 600m: 6 C ag dawn rising to 11 C in the afternoon.
Freezing level: Above summits.
